Subject: Introduction Catalyst handling Services for tubular reactors

Dear Sir,

We take this opportunity, to introduce CSI (Catalyst Services International) W.L.L. as specialized company for catalyst change-out for tubular reactors with specialized unloading, loading and DP measurement equipment.

CSI WLL is part of the Janabiya Holding Company W.L.L, a leading Bahrain civil and industrial maintenance contractor. The group has been engaged in Industrial maintenance work for more then 20 years. The Janabiya Holding has a resource pool of approx. 1000 qualified people.

CSI started up in 2007 and employed the most experienced (10-15 years) management team and developed state of art and proven equipment for catalyst change-outs, in order deliver the best quality to our customers.

The head office is in Bahrain and local office in Saudi Arabia. We have agents in the Middle East and associated companies in Asia.

If you need additional information or would prefer to meet with us at your office, please contact us at your convenience.

Yours sincerely,

Issam Abu Hamad
Managing Director
